Dear. Mr. Murphy:

I have received Weston Geophysical Corporation's Monthly Progress Report No. 30 for September 1986, summarizing progress under contract NRC-02-84-001.

Based on the information supplied in your report, I consider that the progress on the revision of the Draft Report "Survey of Geophysical Techniques, for site characterization Basalt, Salt and Tuff" is proceeding extremely slow and the report deadline has been extended several times. Weston Geophysical needs to commit themselves to complete the draft of this task by the 1st of November, 1986. I highly recommend that a priority status be assigned to the revision of this draft report.

Action taken by this letter is considered to be within the scope of the current contract (NRC-02-84-001). No changes to costs or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in a change to costs or delivery of contract products.
