Person(s) Calling: Sattar Lodhi			
Subject:			
<p>Summary:</p> <p>The licensee's renewal application included request to remove their Newtown facility from the license. A subsequent letter dated July 7, 2003, stated that they used material at this site between 1999 and 2003. However, the decommissioning surveys were performed in December 2001. I tried to call the new RSO (Sid Porter), and having failed to contact him, I called Ms. LumKong to verify the date when they ceased activities at the site.</p> <p>She stated that they did not use licensed material at Newtown facility since middle of 2001, and the information in July 7 letter is incorrect. She promised to provide correct information soon.</p> <p>Another individual, Donald Mercado called me to inform me that they ceased activities at this site in September 2001. (Only thorium was authorized for use at this site).</p>
