Dear Dave:

The scoping reviews of the NNWSI and Salt EAs are attached (letter reports LR-2.3, "Scoping Review of the Draft EA for the Yucca Mountain Site," and LR-3.5, "Scoping Review of the Draft EAs for the Salt Sites"). As discussed we have not compiled the reference list for the Salt EAs. This will be done after the workshop proceedings are drafted. All of the references we have cited are in our data base; however, we are still obtaining documents circuitously rather than directly from the sites.

Also attached is S. Y. Lee's review (LR-4.1-19) of the document, "An Application of the Population Balance to the Assessment of the Importance of Radioactive Colloids in High-Level Waste Management," by H. E. Nuttall, M. D. Siegel, and E. J. Bonano.

Sincerely,

Susan
