Dear Dr. Cranwell:

I have received and read your monthly progress reports for FIN-A1158 "Repository Site Definition and Technology Transfer" and FIN-A1166, "Maintenance of Computer Programs." I have no comments on A1166. I have three comments regarding A1158. Firstly, please provide a brief description of the scaling procedure for the Jacobian matrix in your next report. Secondly, the extension to the LBL contract until 10/31/85 meets with no objection from NRC. Thirdly, all comments on the tuff RSD have been collected, and will be forwarded to you in the next few weeks.

The action taken by this letter is considered to be within the scope of the current contracts SOEW 50-81-43 and SOEW 50-82-20. No changes to the costs or delivery of other contracted products other than the noted extension for the LBL contract are authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contracted products.

Sincerely,

Original Signed By

Richard Codell, Project officer
Division of Waste Management
Office of Nuclear Materials
Safety and Safeguards
