Dr. A. D. Kelmers
Chemical Technology Division
Building 4500 N/Room 268
P.O. Box X
Oak Ridge National Laboratory
Oak Ridge, TN 37831

Dear Dr. Kelmers:

SUBJECT: CONTRACT NO. NRC-50-19-03-01, FIN B-0287, ORNL NO. 41-37-54-92-4,
"TECHNICAL ASSISTANCE IN GEOCHEMISTRY", FEBRUARY MONTHLY PROGRESS
REPORT

I have reviewed the February monthly progress report dated March 9, 1987.
Based on my review, I have the following comments.

° Progress to date is satisfactory

° ORNL reviews of Menerologic Summary of Yucca Mountain Nevada, and the
Los Alamos National Laboratory Q.A. plan for radionuclide sorption
work were received. I gave copies to John Bradbury and Paul Bembia.
If they have any comments or questions, they will contact you
directly.

° Copies of draft SCP chapter 4 for NNWSI and BWIP are enclosed
(Attachments 1 and 2 respectively). Each document needs a
preliminary or scoping review with respect "major flows". It is my
understanding that these chapters reflects the current knowledge that
DOE has about each site. Therefore, it is this chapter that will set
the ground work for the development of data/information needs, and
thus test plans. Please call me to discuss review milestones.

° I have enclosed a copy of the material that supports the mini - Q.A.
audit that is being planned for NNWSI/LANL (Attachment 3). Please
pass them along to Jim Blencoe. John Bradbury will contact him to
discuss what needs to be done.

° I have enclosed a copy of our "research" needs letter. Please pass
it along to Gary Jacobs. It is for his information.
