Dear Dr. Kelmers:

SUBJECT: CONTRACT NO. NRC-50-19-03-01, "TECHNICAL ASSISTANCE IN
GEOCHEMISTRY:" APRIL (1987), MONTHLY PROGRESS REPORT

I have reviewed the April monthly progress report dated May 6, 1987. Based on my review I have the following comments:

°Progress to date is satisfactory.

°ORNL draft letter report on geochemistry issues for the tuff site was received. I have given copies to John Bradbury and Paul Bembia for review. If they have any questions, they will contact you directly.

°The material concerning basalt mineralogy/petrology was received. I have given this information to Tin Mo and Paul Bembia so they can use it to prepare for the mineralogy/petrology data review. This review has been recently moved from June to August. I will keep you posted concerning the details of this meeting as they develop.

°The date for the BWIP/hydrazine data review is either the week of June 15 or June 22. I will let you know which week it will be held as soon as the date is finalized.

The action taken by this letter is considered to be within the scope of the current contract (FIN B-0287). No changes to costs or delivery of contract products is authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contracted products.

Sincerely,

15/

David J. Brooks, Acting Section Leader
