Mr. Mark J. Logsdon, Project Manager  
Nuclear Waste Consultants, Inc.  
8341 South Sangre de Cristo Rd.  
Suite 14  
Littleton, Colorado 80127

Dear Mr. Logsdon:

In response to your letter of February 5, 1987, (NWC Communication No. 134) I request that Mr. Lyle Davis attend the Waste Management '87 meeting to be held in Tucson, Arizona during March 1-5, 1987. In particular, Mr. Davis should attend Session XXI beginning at 8:30 a.m. on Wednesday, March 4. This is the session on geotechnical characterization of HLW repositories being co-chaired by John Greeves (WMEG Branch Chief) and Jay Rhoderick of U.S. DOE. Papers will be presented on the University of Arizona's work on fracture system characterization in unsaturated rock (being done under NRC contract) as well as the Hydrocoin Project. I also suggest Mr. Davis initiate a dialogue with Mr. Nicholson of our Office of Research so as to assure the benefits derived from our research program are a considered part of our NNWSI related activities.

The action taken by this letter is considered to be within the scope of the current contract NRC-02-85-009. No changes to costs or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in a change to costs or delivery of contracted products.

Sincerely,

Jeffrey A. Pohle, Project Officer  
Geotechnical Branch  
Division of Waste Management  
Office of Nuclear Material Safety  
and Safeguards
