Mr. Mark J. Logsdon, Project Manager
Nuclear Waste Consultants, Inc.
8341 So. Sangre de Cristo Road
Suite 14
Littleton, Colorado 80127

Distribution: _____

(Return to WM, 623-SS)

Dear Mr. Logsdon:

I have reviewed your monthly progress report for November dated December 12, 1986. This report describes the status of Nuclear Waste Consultants' technical assistance under Contract No. NRC-02-85-009. Overall progress made to date under this contract is satisfactory.

Task 1 - NNWSI

For your information, we have received your report updating WWL's numerical evaluations consisting of revised report numbers 1 and 2 including new report numbers 4, 5, and 6. I have some comments of a programmatic nature that I will forward under separate cover. Mr. Ford is currently reviewing these reports to prepare for our upcoming meeting on data needs assessments.

Task 2 - BWIP

This is to confirm the telephone conversation of December 12, 1986, between myself, Mr. Brown (NWC), and Dr. Verma extending the due date of your reanalysis of NWC's June 13, 1986, review of SD-BWI-TI-303 to the second week of January.

We have received your trip report covering the BWIP hydrology review pre-meeting held in Silver Spring on November 6-7, 1986. I have no comments regarding this trip report.

Task 3 - SRPO

I have no comments regarding this month's SRPO related activities.

Task 5

I have received your trip report on our meeting about uncertainty in hydrogeologic investigations. I have also received your letters of November 18 and December 29 outlining your current understanding of the scope and direction of this project. I am preparing a detailed response to your letters which will be forwarded subsequent to Dr. Verma's review and approval.

While I am focussing on the area of uncertainty, both you and the site leads will be spending the next few weeks laying out the organization and schedules for the project specific data needs assessments. As you are aware, you will be attending a planning meeting here in Silver Spring during January 27-29. It is important that overall project specific planning moves forward including but

3729

not limited to the data needs assessments. I want to make sure each site lead directs preparation of a set of milestones for remaining FY87 and into FY88 with related budget estimates. More details will be provided at the meeting.

The action taken by this letter is considered to be within the scope of the current contract NRC-02-85-009. No changes to cost or delivery of contracted services and products are authorized. Please notify me immediately if you believe that this letter would result in changes to cost or delivery of contracted products.

Sincerely,

JS/

Jeffrey A. Pohle, Project Officer
Geotechnical Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards
