John Linchan (NMS/WMRP-301/427-4177).  
MJL agreed to address specific matters of  
fact:

1. Reviewed Clifton paper at  
direction of NRC staff
2. Used NWC's data base, which  
is derived primarily from DOE data
3. Differences in NWC/DOE results  
are based on differences in approaches to  
handling data, especially effective porosity.
