### Examination Outline Quality Checklist

I

ł

Facility	Date of Examination:					
		Initials				
ltem	Task Description	a b* c#				
1. W	a. Verify that the outline(s) fit(s) the appropriate model per ES-401.	QET TF				
R I T	b. Assess whether the outline was systematically and randomly prepared in accordance with Section D.1 of ES-401 and whether all K/A categories are appropriately sampled.					
T	c. Assess whether the outline over-emphasizes any systems, evolutions, or generic topics.	QET & TF				
Ň	d. Assess whether the justifications for deselected or rejected K/A statements are appropriate.	QSAR TF				
2.	a. Using Form ES-301-5, verify that the proposed scenario sets cover the required number of normal evolutions, instrument and component failures, and major transients.	REZ OF TF				
S I M	b. Assess whether there are enough scenario sets (and spares) to test the projected number and mix of applicants in accordance with the expected crew composition and rotation schedule without compromising exam integrity; ensure each applicant can be tested using at least one new or significantly modified scenario, that no scenarios are duplicated from the applicants' audit test(s)*, and scenarios will not be repeated over successive days.	QEZ & TF				
	c. To the extent possible, assess whether the outline(s) conform(s) with the qualitative and quantitative criteria specified on Form ES-301-4 and described in Appendix D.	alf of TF				
3. W / T	<ul> <li>a. Verify that:</li> <li>(1) the outline(s) contain(s) the required number of control room and in-plant tasks,</li> <li>(2) no more than 30% of the test material is repeated from the last NRC examination,</li> <li>(3)* no tasks are duplicated from the applicants' audit test(s), and</li> <li>(4) no more than 80% of any operating test is taken directly from the licensee's exam banks.</li> </ul>	AEJ & TF				
	<ul> <li>b. Verify that:</li> <li>(1) the tasks are distributed among the safety function groupings as specified in ES-301,</li> <li>(2) one task is conducted in a low-power or shutdown condition,</li> <li>(3) 40% of the tasks require the applicant to implement an alternate path procedure,</li> <li>(4) one in-plant task tests the applicant's response to an emergency or abnormal condition, and</li> <li>(5) the in-plant walk-through requires the applicant to enter the RCA.</li> </ul>	QETR TF				
	c. Verify that the required administrative topics are covered, with emphasis on performance- based activities.	atto TF				
	d. Determine if there are enough different outlines to test the projected number and mix of applicants and ensure that no items are duplicated on successive days.	QE & TF				
4.	a. Assess whether plant-specific priorities (including PRA and IPE insights) are covered in the appropriate exam section.	QE R TF				
G E	b. Assess whether the 10 CFR 55.41/43 and 55.45 sampling is appropriate.	DE DE TF				
N E	c. Ensure that K/A importance ratings (except for plant-specific priorities) are at least 2.5.	at R TF				
R A	d. Check for duplication and overlap among exam sections.	ac & TF				
L	e. Check the entire exam for balance of coverage.	US & TF				
	f. Assess whether the exam fits the appropriate job level (RO or SRO).	DE R TF

NRC Examination Security Agreement

#### Pre-Examination 1.

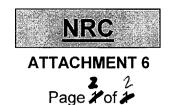

I acknowledge that I have acquired specialized knowledge about the NRC licensing examinations scheduled for the week(s) of 6/16-30/03 as of the date of my signature. I agree that I will not knowingly divulge any information about these examinations to any persons who have not been authorized by the NRC chief examiner. I understand that I am not to instruct, evaluate, or provide performance feedback to those applicants scheduled to be administered these licensing examinations from this date until completion of examination administration, except as specifically noted below and authorized by the NRC. Furthermore, I am aware of the physical security measures and requirements (as documented in the facility licensee's procedures) and understand that violation of the conditions of this agreement may result in cancellation of the examinations and/or an enforcement action against me or the facility licensee. I will immediately report to facility management or the NRC chief examiner any indications or suggestions that examination security may have been compromised.

#### Post-Examination 2.

To the best of my knowledge, I did not divulge to any unauthorized persons any information concerning the NRC licensing examinations administered during the week(s) of 6/16-30/03. From the date that I entered into this security agreement until the completion of examination administration, I did not instruct, evaluate, or provide performance feedback to those applicants who were administered these licensing examinations, except as specifically noted below and authorized by the NRC.

#### Operating Test Quality Checklist

Form ES-301-3 (R8, S1)

Facility:	HOPE CREEK Date of Examination: 6/17/03 Operatin	g Test	Numbe	er: {
			Initial	s
	1. GENERAL CRITERIA	а	b*	c#
a.	The operating test conforms with the previously approved outline; changes are consistent with sampling requirements (e.g., 10 CFR 55.45, operational importance, safety function distribution).	ar	\$2	ΤF
b.	There is no day-to-day repetition between this and other operating tests to be administered during this examination.	497	62	TF
с.	The operating test shall not duplicate items from the applicants' audit test(s)(see Section D.1.a).	287	X	TF
d.	Overlap with the written examination and between operating test categories is within acceptable limits.	QE7	P	TF
e.	It appears that the operating test will differentiate between competent and less-than-competent applicants at the designated license level.	QE J	R	TF
	2. WALK-THROUGH (CATEGORY A & B) CRITERIA			
a.	Each JPM includes the following, as applicable:			
	<ul> <li>initial conditions</li> <li>initiating cues</li> <li>references and tools, including associated procedures</li> <li>reasonable and validated time limits (average time allowed for completion) and specific designation if deemed to be time critical by the facility licensee</li> <li>specific performance criteria that include: <ul> <li>detailed expected actions with exact criteria and nomenclature</li> <li>system response and other examiner cues</li> <li>statements describing important observations to be made by the applicant</li> <li>criteria for successful completion of the task</li> <li>identification of critical steps and their associated performance standards</li> <li>restrictions on the sequence of steps, if applicable</li> </ul> </li> </ul>	Q: A	Q,	TF
b.	The prescripted questions in Category A are predominantly open reference and meet the criteria in Attachment 1 of ES-301.	420	R	TF
с.	Repetition from operating tests used during the previous licensing examination is within acceptable limits (30% for the walk-through) and do not compromise test integrity.	ait	R	TF
d.	At least 20 percent of the JPMs on each test are new or significantly modified.	as 1	62	7F
	3. SIMULATOR (CATEGORY C) CRITERIA			
a.	The associated simulator operating tests (scenario sets) have been reviewed in accordance with Form ES-301-4 and a copy is attached.	04. J	P	1F
c. NRC C d. NRC S	A Reviewer(*) Shief Examiner (#) Supervisor TODD FISH Jodd Fish Supervisor TODD FISH JODD FISH	ام ایک (ک) کا	12/0	03
