(Return to WM, 623-SS)

Dear John:

As discussed I am enclosing the following QA procedures that cover our research programs at ORNL.

QA Program Description

QA-L-1-100	Quality Assurance Program
QA-L-1-101	QA Planning
QA-L-1-103	Quality Assurance Assessments
QA-L-3-100	Control of Documents and Records
QA-L-6-101	Reporting of Quality Deficiencies
QA-L-8-100	QA Audits
QA-L-14-100	Instrumentation Control and Calibration
QA-L-16-100	Quality Assurance Records

These documents are the framework of QA under which our NRC geochemistry projects are operating. The additional documents I forwarded to John Starmer from various division QA manuals were typical QA documents published at ORNL for more specific programs and were intended as examples. They should not be considered as QA procedures explicitly for the NRC geochemistry projects.

If I can be of further assistance, please call me.

Sincerely,

Susan
Susan K. Whatley, Manager
Engineering Analysis And Planning
Chemical Technology Division
