Mr. Earl Amey
U.S. Bureau of Mines
2401 E. Street, N.W.,
Washington, DC 20241

Distribution:

(Return to WM, 623-SS)

Dear Mr. Amey:

We have received your quarterly report for the period of July-September, 1981, for the Interagency Agreement (NRC-02-80-075) between the U.S. Bureau of Mines and the U.S. Nuclear Regulatory Commission.

Under the "travel" section of the report, a trip by the Denver Research Center personnel to attend a data review for NNWSI on July 16-20 should also have been included. In addition, Denver staff submitted comments on the draft NNWSI preliminary EA.

Under future work, the NRC expects to receive the final draft EA from DOE on or about December 20, 1984. I will be sending a review schedule to the personnel working on the review of the draft EA's in the near future.

The action taken by this letter is considered to be within the scope of the current Interagency Agreement NRC-02-80-075. No changes to cost or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in changes to cost or delivery of contracted products. I can be reached on 427-4649.

Sincerely,
