Dear Dave:

Enclosed for your review is a draft copy (unedited) of the "Proceedings and Recommendations from a Conference on the Application of Geochemical Models to High-Level Nuclear Waste Repository Assessment." The extended abstracts are not included for review as these were prepared "camera-ready" by each of the authors. As we indicated earlier, we have distributed copies of this draft report to the speakers and co-chairpersons for their comments prior to issuance in final form. The report will be edited after their comments (and yours) have been incorporated.

Please review the draft copy and provide me with your comments by Wednesday, February 13, 1985. We have requested that the speakers and co-chairpersons comments be received by February 13, 1985, in order to be incorporated into the final version. We want to have the report published by the end of April 1985.

Sincerely,
Susan
