SUBJECT: SUPPLEMENTAL INFORMATION POTENTIALLY RELEVANT  
AND MATERIAL TO PROCEEDING IN THE MATTER OF THE  
U.S. ARMY AND THE JEFFERSON PROVING GROUND SITE

In conformance with the Commission's policy on notification of the Presiding Officers and parties of new, relevant, and material information, this memorandum provides the information discussed below.

On September 22, 2003, the U.S. Army (the licensee) submitted a license amendment request for the Jefferson Proving Ground (JPG) site. The Army's license amendment request would create a 5-year renewable possession-only license. The request and revised Environmental Radiation Monitoring Program Plan are attached. The U.S. Nuclear Regulatory Commission staff (NRC staff) will conduct an acceptance review of the request, expected to be completed within 30 days. If the license amendment request is accepted for technical review, the NRC staff will publish a request for comments and an opportunity for a hearing on the amendment request in the Federal Register. Based upon current expectations, the request for comments and opportunity for a hearing will be published in the Federal Register in the late October timeframe.

This information is being brought to the attention of the Presiding Officer, Special Assistant, and all parties, as it may be relevant and material to issues pending in the JPG proceeding.
