Dear Ms. Whatley:

SUBJECT: REVIEW OF JULY MONTHLY PROGRESS REPORT FOR B0290, "LABORATORY EVALUATION OF DOE RADIONUCLIDE SOLUBILITY DATA AND SELECTED RETARDATION PARAMETERS, EXPERIMENTAL STRATEGIES, LABORATORY TECHNIQUES AND PROCEDURES"

I have reviewed the July, 1985 Monthly Progress Report dated August 12, 1985 for the subject contract. Based on my review, progress to date is satisfactory.

Although the Unsaturated Zone Hydrology-Geochemistry Workshop has been postponed, the meeting concerning sorption methodologies may still be held this month. Tentatively, this meeting is scheduled for either the week of September 23 or September 30 at Los Alamos. Linda Kovach is trying to work out the details with the people at Los Alamos and our NNWSI site representative. I will keep you informed about any changes or decisions.

The action taken by this letter is considered to be within the scope of the current contract FIN B-0290. No change to cost or delivery of contract products is authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contract products.

Sincerely,
