Dear Mr. Mundell:

Under the interagency agreement between the U.S. Bureau of Mines (BOM) and the Nuclear Regulatory Commission (NRC-02-80-075), you are requested to review the document "Nuclear Waste Simulation Experiments, Asse Salt Mine, Federal Republic of Germany, Annual Report, 1983," ONWI-539. The review of the report should consist of the following; 1) a brief summary of the report, 2) significance to NRC Waste Management Program, and 3) problems, deficiencies or limitations of report (an example is attached). The review should be submitted by May 30, 1985. This corrects my memo of April 26, 1985 which inadvertently had an incorrect due date.

The action taken by this letter is considered to be within the scope of the current interagency agreement (NRC-02-80-075). No changes to costs or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contracted products. I can be reached on (301) 427-4649.

Sincerely,

/s/

David Tiktinsky
