Dear Mr. Mundell:

Please review the document entitled "Performance Analysis Studies to be Used in Determining Quality Assurance Levels for the Exploratory Shaft Design and Construction Activities" (sent under separate cover). This document is a reference for the DOE response to the NRC Exploratory Shaft Letter to NNWSI (Coplan to Vieth, April, 1983). This document should be reviewed in conjunction with the review of the DOE response stated above (you have already received authorization for this review). Comments on this reference will be discussed at the upcoming NRC/NNWSI technical meeting that will be held on August 27-28, 1985.

This work should be performed under the Interagency Agreement between the U.S. Nuclear Regulatory Commission and the U.S. Bureau of Mines (NRC-02-80-075).

The action taken by this letter is considered to be within the scope of the current Interagency Agreement (NRC-02-80-075). No changes to costs or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contracted products. I can be reached on (301) 427-4649.

Sincerely,

*[Signature]*
