I have reviewed the May, 1986 monthly progress report submitted by Engineers International. Based on the summary of activities presented in the report, I have the following comments.

Task Orders 001 through 006 have been completed.

Task Order 007 is once again active. The period of performance of this task order has been extended until December 19, 1986. The distribution of funds remaining in this task order may not accommodate the future work load. Therefore, I will initiate a modification to the contract to redistribute the remaining funds to as yet unwritten task orders. This modification will not affect ongoing work.

In the response to EI's April monthly progress report I stated Task Order 008 will involve the development of draft point papers for the NRC. This statement is incorrect. Task Order 008 was written to include review activities for the SCP. Due to the SCP schedule the task was never issued and has since been cancelled. To maintain continuity in the NRC contract files point papers will be prepared under Task Order 009.

Work is currently underway to initiate the start-up of Task Order 009. Task Order 009 will include the development of technical point papers.

No difficulties have been identified at this time.

ACTIVITIES PLANNED FOR NEXT REPORTING PERIOD

EI will be involved in the review of background documents in preparation for the Final Environmental Assessment review. Mr. Peter Huck will attend a document review meeting in Silver Spring, Maryland on June 17-19, 1986, to discuss the review of the BWIP Final EA.

If you have any questions or comments regarding this letter please contact me.

Sincerely,

15/
