Attention: **Mr. Jeff Pohle, Project Officer**
Technical Assistance in Hydrogeology - Project B (RS-NMS-85-009)

Re: **Subtask 1.2 Data Management Semi-Annual Update Report**

Dear Mr. Pohle:

Attached please find the semi-annual update report for Subtask 1.2 Data Management, prepared by Water, Waste and Land, Inc. The report has received a technical and project management review by Mark Logsdon of Nuclear Waste Consultants, and the report was prepared under WWL's quality assurance program, in compliance with the NWC Quality Assurance Program for the NRC. The report includes three attachments:

- A. NNWSI Bibliography, presenting the bibliographical information on 294 documents currently in the technical holdings of our NNWSI team.
- B. NNWSI Document Summaries, comprising the informal working reviews of 206 documents that have received at least screening reviews by the NNWSI team.
- C. NNWSI Data Base, presenting the summary and cross-references on geologic and hydrogeologic information available to the team on all borehole tests that have been reported by DOE.

Because this data management report is self-contained, it replaces all earlier versions of the Subtask 1.2 update reports.

Submission of this update report completes the contract deliverable for Subtask 1.2 of the current contract. If you have any questions about the data management report, please contact me immediately.

Respectfully submitted,
NUCLEAR WASTE CONSULTANTS, INC.

Mark J. Logsdon, Project Manager
