Dear Mr. Jagannath:

Enclosed is a list of the new key references selected from the list of references provided in your letter of January 16, 1986 for reviewing the final Environmental Assessment for the Nevada Nuclear Waste Storage Investigations (NNWSI) project site. Identification of the new key references was limited to subjects that pertain to geomechanical and structural stability for the underground repository.

If we can provide further assistance for this reference review, please phone me at FTS 776-0741 or Kanaan Hanna at FTS 776-0724.

Sincerely,
