MEMORANDUM FOR: Eleni Davis, Contracts Specialist
Program Implementation Branch
Program Management, Policy Development,
and Analysis Staff, NMSS

FROM: Neil M. Coleman, Project Manager
Technical Review Branch
Division of High-Level Waste Management, NMSS

SUBJECT: REQUEST FOR NO-COST EXTENSION OF NMSS PROJECT A1158

Technical assistance project A1158 is currently scheduled to expire on September 30, 1987. It is requested that the expiration date of this contract be extended for three months to allow completion of continuing work and to preserve continuity in computer code quality assurance. This work includes our program of computer code maintenance and quality assurance at INEL (Idaho National Engineering Laboratories). During the next three months this program of code maintenance will be incorporated within project A1165 as a new task to provide continuity in code quality assurance until the future FFRDC contractor can assume the work.

Based on a telephone conversation between N. Coleman (NRC) and R. Cranwell (Sandia) during the week of September 7th, existing funds are adequate and this extension will thereby not invoke additional cost to the government. Please prepare the paperwork needed to request that the Division of Contracts extend the period of performance of FIN A1158 until December 31, 1987.
