MEMORANDUM FOR : Philip S. Justus, Acting Chief
 Geotechnical Branch, DWM

FROM : John J. Linehan, Acting Chief
 Repository Projects Branch, DWM

SUBJECT : REVIEW OF PROJECT A1158 (REPOSITORY SITE DEFINITION
 AND ASSISTANCE IN NUMERICAL MODELING)

As requested in your memorandum of November 23, 1986, we have completed our review of the Project Descriptive Summary and Statement of Work (SOW) for Project A1158, Repository Site Definition and Assistance in Numerical Modeling. The review was conducted with respect to the potential for unnecessary duplication of DOE work; clarity of the presentation in the SOW with respect to the purpose of the work and the nature of the service being procured; and consistency of the work with programmatic goals.

We found the SOW to be satisfactory with respect to the considerations specified above and support the work as described pending resolution of the comments noted on the attached markup. These comments have been discussed with Niel Coleman of your staff. We endorse this work as an important contribution to the goal of developing and maintaining an independent review capability for the NRC staff and its contractors.

If you have any questions or would like further clarification of our comments, please contact John Libert of my staff at x74675.

Sincerely,

ORIGINAL SIGNED BY

John J. Linehan, Acting Chief
 Repository Projects Branch, DWM
