ITASCA TRIP REPORT

DATES: 21-24 July 1986

LOCATION: Nuclear Regulatory Commission  
Silver Spring, Maryland

PURPOSE: Technical Quality Review for Salt Final Environmental  
Assessments for the Deaf Smith County, Richton Dome,  
and Davis Canyon Sites

ATTENDEES: Adrian Brown (Nuclear Waste Consultants)

PREPARED BY: Roger Hart

SUMMARY

The purpose of this meeting was to perform a Technical Quality Review of NRC Comments on the Final Environmental Assessments for the proposed high-level nuclear waste repositories at the Deaf Smith County, Richton Dome, and Davis Canyon sites. The review was completed on 24 July 1986. Attached are summary comments prepared by Adrian Brown.

Respectfully submitted

**RE: Trip report: Trip to Silver Spring July 21-24, 1986 by Adrian Brown**

**Dear Roger:**

As you directed I traveled to the NRC's division of waste management in Silver Spring, Maryland on July 21-24, 1986 for the purpose of performing a quality assurance awarded the UDIT of the NRC's major and detailed comments on the three Salt final and environmental assessments of the DOE. During the three days which I was there I first performed an independent evaluation of the extent to which the comments on the draft environmental assessments had been handled by the DOE, and then reviewed the NRC staffs evaluation of that same matter. In general the comments were similar, although some quality assurance matters were brought out with the staff, and appropriately rectified.

At the conclusion of the four day visit, quality assurance assessment forms were prepared and signed by both myself and the NRC staff.

Attached to this letter is a copy of my summary quality assurance review which covers the materials presented.

**Sincerely yours,  
NUCLEAR WASTE CONSULTANTS**

**Adrian Brown  
President**
