MEMORANDUM

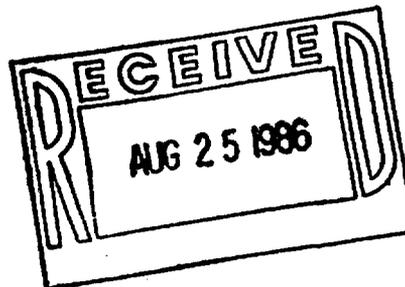

August 11, 1986

TO: Roger D. Hart, ITASCA
FROM: Y. C. Kim, University of Arizona *YCK*
SUBJECT: Trip Report on Attending a Document Review Meeting
Entitled "Geostatistical Applications in Earth
Sciences", at Silver Spring, MD., August 5 - August 7,
1986.

This 3 day meeting was held on the first floor conference room of the NRC building from 8:30 a.m. to 4:30 p.m. each day. Initially, 15 people were scheduled to attend the meeting. However, only 11 came to the 1st day of the meeting. For the 2nd and 3rd day of the meeting, several others could not attend for various reasons.

For those who managed to attend the entire 3 day session, the responses to the meeting were very positive. They felt that the materials discussed were beneficial for their future work. The same can not be said, however, for those who did not attend all 3 days of the meeting.

Several of the participants expressed the desire for another meeting of a similar nature, but dealing with advanced topics on different Kriging techniques.
