

MEMORANDUM

To: Dr. A.B. Ibrahim  
Project Officer  
NUCLEAR REGULATORY COMMISSION

FROM: V.J. Murphy  
Project Manager  
WESTON GEOPHYSICAL CORPORATION  
PO Box 550  
Westboro, MA 01581

DATE: July 7, 1986

SUBJECT: Contract No. NRC-02-84-001  
Trip report - Silver Spring Office - 24, 25 June 1986  
Review of FEA comments for Hanford, Yucca Mountain, Deaf Smith,  
Davis Canyon, and Richton Dome Sites

Dear Dr. Ibrahim:

This trip report summarizes the activities and tasks with regard to Weston's reviews and involvements with the Final Environmental Assessments for the above-listed repository sites.

Weston personnel [V.J. Murphy, E.N. Levine, J. Rice] attended meetings at the NRC offices in Silver Spring on Tuesday, June 24th and Wednesday, June 25th in order to assist NRC personnel and other consultants with review functions of these FEA's. Prior to that meeting Weston performed an independent review and prepared and submitted comments.

All of Weston's notes were submitted prior to and at the meeting in Silver Spring; therefore, they are not appended to this trip report.

At the present time, and as a follow up activity to the meeting, Weston is preparing the major Comment Number 1 and Number 2 for the Deaf Smith, Texas - FEA review as well as appropriate memoranda to the NRC engineering section with regard to some geological considerations for the Yucca Mountain area.
