Dear David:

Enclosed are items related to the use of rock reinforcement representations in FLAC and MUDEC:

- (1) a recent paper entitled "Rock Reinforcement: Mechanical Representation and Use in Finite Difference Schemes";
- (2) example calculations of parameters used in various models; and
- (3) example problems (data files) in which reinforcement was specified.

Please feel free to call me if you require additional information or if anything is unclear. We hope to send updated versions of FLAC and MUDEC for the DSI board this week.

Sincerely,

A handwritten signature in cursive script that reads "Loren".
