

October 7, 2003

Mr. David Paulison, Director
Office of Emergency Preparedness
and Response
Federal Emergency Management Agency/DHS
500 C St. SW
Washington, D.C. 20472

Dear Mr. Paulison:

I want to take this opportunity to share my appreciation for Mr. Craig Conklin's support and participation in the Commission Briefing on Emergency Preparedness held on September 24, 2003. His presentation was well-received, and its preparation reflected a high level of communications, cooperation and coordination between the Department of Homeland Security (DHS)/Federal Emergency Management Agency (FEMA) and the Nuclear Regulatory Commission (NRC).

I would also like to thank you and your staff for your continued support of the NRC's requests for FEMA assistance. These requests have run the gamut from providing support towards the resolution of allegations, to the review of NRC documents which may impact FEMA activities. I want to particularly commend the performance of Ms. Vanessa Quinn and Mr. O.C. Payne in responding to these requests. I realize that such support has not been easy considering the many organizational and day-to-day challenges that you and your staff have faced over this past year. However, the quality of the products received and the timeliness of response are commendable.

I appreciate your efforts and look forward to your continued support in the future.

Sincerely,

/RA/

J. E. Dyer, Director
Office of Nuclear Reactor Regulation
