Attention: Mr. Jeff Pohle, Project Officer
Technical Assistance in Hydrogeology - Project B (RS-NMS-85-009)

Re: Status of Contract Extension - Stop Work Order: April 29, 1988

Dear Mr. Pohle:

As of close-of-business today, Nuclear Waste Consultants has not received a contract modification for the proposed revisions to the statement of work for Contract No. NRC-02-85-009 (see most recently NWC Communications Nos. 242, 247). Based on the invoice for March, 1988 (currently in the final stages of preparation) and my tracking of costs for April (including the meeting in Las Vegas and the subsequent trip report to which we are committed), I consider that the contract will be essentially at 100% of authorized spending by April 29, 1988. Consequently, by this letter I am notifying the U.S. Nuclear Regulatory Commission that I am instructing all NWC personnel, subcontractors, and consultants that all work under the current contract (except for preparation of final invoices) will cease as of close of business on April 29, 1988 unless a contract modification extending funding through January 19, 1989 has been fully executed by that time.

Please confirm in writing that you have received this letter.
