Washington D.C. 20500

Dear Mr. President:

I am writing to you because I believe that Indian point should be closed immediately. From the information I have gather it appears that the evacuation plan is not safe and does not work. That it will not protect New Yorkers from a serious dosage of radiation. I am a New Yorker and I live in the Westchester commuhity.

New York does not need Indian point as much as it is publicized. The closer of Indian point will not cause burn outs or blackouts. Indian point is a glaring terrorist target and guards say they cant defend against attacks. They are blowing the whistle at weak security.

If you keep Indian point open more and more operational problems will occur. Indian point has already been "red" designated for failing to detect radiation leaks and flaws in a steam generator tube.

As I said before I live in the Westchester community and my family and friends are effect by your decision. If Indian point is not closed you are putting many lives in danger. I hope this letter has help persuade you in making the right decision. Indian point cannot stay open for the good of the people.

Sincerely,

Sarah Shankman
