Port Gibson, MS 39150

SUBJECT: MAINTENANCE OF DOCUMENTS AT THE PORT GIBSON PUBLIC LIBRARY
RELATED TO APPLICATION BY SERI FOR AN EARLY SITE PERMIT FOR
GRAND GULF

Dear Ms. Butler:

This is to confirm the arrangements that we discussed in June and July, 2003, concerning the maintenance of documents in the reference section of your library. These documents are related to the NRC staff's review of the application by System Energy Resources, Inc. (SERI) for an early site permit at the Grand Gulf site. The staff expects that the SERI application will be docketed in October of this year and will consist of approximately four 3-inch binders. Over the 33-month period of the review, the volume of documents and related correspondence is expected to fill about one 3-foot shelf.

After the NRC receives the application, electronic versions of the documents will also be available at the NRC's Public Document Room and in the Public Electronic Reading Room, accessible through the NRC Home Page (<http://www.nrc.gov>).

We appreciate your willingness to assist the public in participating in the review process for the Grand Gulf early site permit. We will place the Harriette Person Memorial Library on our distribution list for documents and notices related to the SERI application for an early site permit at the Grand Gulf site.

Thank you for your cooperation. If you have any questions, you can reach me by telephone at (301) 415-1108 or Cristina Guerrero at (301) 415-2981. You may also email us at jhw1@nrc.gov or cxg3@nrc.gov.

Sincerely,

/RA/

James H. Wilson, Senior Project Manager
License Renewal and Environmental Impacts
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation

Project No.: 720
