Emergency Worker Dose Extension

1. Symptoms

1.1 Workers performing emergency service may be expected to exceed normal occupational exposure limits during a declared emergency event or exceed blanket dose extension limits authorized by the Radiation Protection Manager.

1.2 This procedure shall not be used for "Planned Special Exposures".

2. Immediate Actions

2.1 Select Personnel based on the following:

2.1.1 Personnel shall be Duke Power Emergency Response Organization Members or Off-site Agency Emergency Workers. All personnel should be volunteers; however, personnel whose exposure during an emergency event is expected to exceed 25 rem TEDE shall be volunteers.

2.1.2 Personnel shall be advised of the risks involved, including the numerical levels of dose at which acute effects of radiation may be incurred and numerical estimates of the risks of delayed effects per EPA 400, "Manual of Protective Action Guides and Protective Actions for Nuclear Incidents." This information is summarized in Enclosure 4.1, "Health Risks Associated With Dose Extensions."

2.1.3 Performance of emergency services should be limited to non pregnant adults.

2.1.4 All factors being equal, older volunteers should be selected.

2.2 Document personnel information including Emergency Worker signature on Enclosure 4.2, "Authorization For Emergency Worker Dose Extensions."

2.3 Obtain Radiation Protection Manager (RPM) or designee signature or verbal acknowledgment of the need for extending Emergency Worker Dose Limits. Document this acknowledgment on Enclosure 4.2, "Authorization For Emergency Worker Dose Extensions."

NOTE: The Radiation Protection Manager or designee may not be readily available; therefore, this acknowledgment is optional.

2.4 Obtain Emergency Coordinator or EOF Director signature or verbal approval prior to extending the Emergency Worker Dose Limits. Document this approval on Enclosure 4.2, "Authorization For Emergency Worker Dose Extensions."

NOTE: After EOF activation the EOF Director should be made aware of any Emergency Worker dose extensions approved by the Emergency Coordinator.

- 2.5 Ensure that proper dosimetry, specified by Radiation Protection, is used by workers performing the emergency service.

3. Subsequent Actions

- 3.1 Maintain exposure ALARA. Doses to all workers during emergencies should, to the extent practicable, be kept within occupational limits.
- 3.2 The Emergency Worker Dose Extension Limits provided in Enclosure 4.2, "Authorization For Emergency Worker Dose Extensions," apply to dose incurred during a declared emergency event.
- 3.3 Exposures above dose limits 5 rem TEDE or any limits from Enclosures 4.2 shall require a medical evaluation as to whether the individual may continue in radiological work.
 - 3.3.1 Emergency Worker dose exposure should be limited to once in a lifetime dose.
- 3.4 Record all exposures in accordance with the "Radiation Protection Policy Manual I-03, Radiation Protection Records."

4. Enclosures

- 4.1 Health Effects and Risks Associated with Radiation Exposure
- 4.2 Authorization for Emergency Worker Dose Extensions
