NRR Info Review Team has reviewed DG-1111 for possible sensitivity and has determined that the document may be issued and distributed without restrictions.

We met with Mindy Landau this morning, and she invited Bill Reckley from NRR. There is a group in NRR, headed by Bill Reckley, who reviews NRR docs for sensitivity. Bill took a copy of your guide and the group will review it. He did not anticipate any problems.

When we receive their approval, we can release the printed copies of the guide.
