**Subject:** Request to Publish NUREG Report  
**Place:** PUBS

Please publish the following NUREG document in paper form:

**NUREG-1725, "Human Interaction with Reused Soil: An Information Search"**

This document has been reviewed based on information in COMSECY-01-0030 (January 25, 2002) which provides the latest Commission guidance to the staff on development of criteria for release of information to the public. Based on this sensitivity review, it has been determined that the content of NUREG-1725 is benign and contains no sensitive information that can be misused by those with malevolent intentions toward NRC-regulated facilities and activities. The result of the review has been approved by Farouk Eltawila (D:DSARE), the cognizant RES Division Director.

The attached memorandum, which documents the results of the review and approval for publishing was physically signed on January 31, 2002.

If there are any questions or comments, please contact me at x 5843.

**MEMORANDUM TO:** Walter E. Oliu, Chief  
 Publishing Services Branch  
 Web, Publishing, and Distribution Services Division  
 Office of the Chief Information Officer

**FROM:** Farouk Eltawila, Director  
 Division of Systems Analysis and Regulatory Effectiveness  
 Office of Nuclear Regulatory Research

**SUBJECT:** REQUEST TO PUBLISH NUREG-1725

Attached are a camera-ready copy and completed NRC Forms 335 and 426A for the publication of NUREG-1725 entitled, "Human Interaction with Reused Soil: An Information Search," prepared jointly by RES and NMSS staff, and the U.S. Department of Agriculture's National Agricultural Library research staff working under an Interagency Agreement with NRC (JCN Y6227). This technical report constitutes a major deliverable from the "Soil Reuse" working team under the "NRC Steering Committee on Clearance" which will benefit the NMSS licensing staff, Agreement States and other stakeholders, and therefore we request that it be published.

This report has been reviewed for sensitive information according to the "Sensitive homeland security information (SHSI)" guidance. Because of the nature of the report and the information contained, the attached report is not expected to have any harmful impact on security of Federal operations or assets, the public health or safety of the United States or its residents, or the nation's long-term economic prosperity; and furthermore, the report contains no currently classified or national security information. Using the criteria set forth in NRC Memorandum dated January 25, 2002 on "Staff Requirements - COMMSECY-01-0030-Guidance to the Staff on Release of Information to the Public," this report should not be withheld due to any SHSI issue, and it provides beneficial technical information important to resolving dose assessment issues associated with release of materials from NRC-licensed facilities.

If you or your staff have any questions or need additional material, please contact the NRC Project Manager, Thomas Nicholson, RPERWMB, RES at 415-6268.
