Mindy, I have checked with Joe Murphy and Mark Cunningham, key contributors to the development of NUREG-1150. Based on their input, you may provide the document to the US Army Nuclear and Chemical Agency. I expect that we will provide for re-release of this document to the public in the near future. However, certain basis documents referenced in NUREG-1150 will, probably be withheld.

Gil

Ms. Landau,

We have received the attached request from the US Army Nuclear and Chemical Agency. The requested NUREG is currently on our restricted list. Based on the requesting agency should we provide a copy ? Or do I need to get the authorization to release or refuse this request from someone in a different Program Office. Please let me know, and thanks for your help.
