Subject: Place:

Approval to Post NUREG/CR-6769 NRCWEB

<u>Please post NUREG/CR-6769 to the NRC public web site.</u> This document has recently been approved for publication in paper form. The sensitivity analysis, which was prepared for paper publication, also applies to web posting. Based on this sensitivity analysis (see attachment), it has been determined that NUREG/CR-6769 does not contain information that could provide a clear and significant benefit to a terrorist in a potential attack.

Thanks, Gil Millman RES Web Liaison
