

United States Department of the Interior

BUREAU OF MINES

WESTERN FIELD OPERATIONS CENTER
EAST 360 3RD AVENUE
SPOKANE, WASHINGTON 99202-1413

October 11, 1989

Memorandum

To: Charlotte Abrams, NRC Project Officer

From: Chief, Branch of Engineering and Economic Analysis

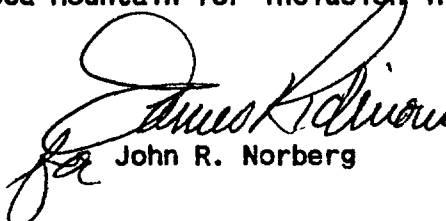

Subject: Final Draft--"Resource Assessment Methodologies for the Proposed High-Level Waste Repository at Yucca Mountain, Nye County, Nevada." Work Directive 002, Task Order 003 under Interagency Agreement NRC-02-85-004

NRC FIN D1018

Enclosed for your review and comment are six copies of the subject draft. The final document will be forwarded to your office 40 days after receipt of your review comments.

Continuation headings (e.g., "Bibliography (continued)", "References (continued)") were not included in the draft but will be included in the final document. Furthermore, bibliography section headings such as "6.4. - Geochemistry" will follow page breaks (i.e., new headings will start on a new page) in the final.

Exploration case histories presented in the draft are not necessarily site-specific but may be of value for NRC and/or DOE. During the review period, this office will attempt to acquire case histories of exploration programs in environments similar to that of Yucca Mountain for inclusion in the final document.

John R. Norberg
