Looks fine except for:

-- the brochures. Please retain this item with links to those seven NUREGs we OK'd for reposting. These are NUREG/BR-0215, NUREG-0240, NUREG/BR-0099, NUREG/BR-0164, NUREG/BR-0137, NUREG/BR-1649, and NUREG/BR-0127.

--Commission Speeches for 2001: please check with SECY, because even though I have not looked at each speech, I doubt whether a Commissioner or the Chairman has said something that would be sensitive.

Here's what I propose we do for News and Info for Release 1:

Remove the Following:

- News Release Archive
- Behind the News
- Commission Activities box (move Live Commission Meetings to Resources and delete Commission Documents)
- Current Reports box and everything in it
- Fact Sheets
- Brochures
- Information Digest
- Facility Info Finder
- Using this Site (Site Help is at the top of every page)

Let me know ASAP if you have any problems with this.
