**Subject:** STP Site is Down for Evaluation

Good Morning Gloria and Marilyn,

While you were away, we decided that public access to NRC's online information needed to be restricted while the contents of the site were evaluated. See explanation at <http://www.nrc.gov>. The site was taken down on Friday at our request.

Is it possible to restore access to STP staff (for purposes of this evaluation) and link the STP site to the NRC's site for all other users?

Please contact me by reply e-mail or at 301/415-2325.

Thanks,

Fred
