(208) 843-2253

March 19, 1987

Mr. John H. Anttonen, Asst. Manager
for Commercial Nuclear Waste
U.S. Department of Energy
P.O. Box 550
Richland, WA 99352

Dear Mr. Anttonen:

The Nez Perce Tribe, in cooperation with the affected parties and the NRC, plans to review the records of well bores in and around the Hanford Reservation. The records are located in the RRL trailer office and are contained in several safes and bookshelves in the library area. Limited examination of one of the bore hole records was made a few weeks ago by Abdul Alkazweeny, the Umatilla and Nez Perce On-Site Representative, and Bob Cook of NRC. A team of reviewers consisting of one person from each of the affected parties and the NRC will conduct the review during the period of May 11-15, 1987, headed by Curtis Canard, a geologist with the Council of Energy Resource Tribes.

We are requesting your assistance in helping the reviewers carry out their assignment. They will require the aid of personnel to facilitate use of the library area and the physical access to the information in the safes noted above. The reviewers may desire copies of records for retention. However, these will be identified and requested formally. Finally, the names of the reviewers and other information required for obtaining badges will be sent to the proper DOE office for processing.

Thank you in advance for your cooperation. We are looking forward to hearing from you.

Sincerely yours,

Ronald T. Halfmoon
