Mr. John D. Monninger, Chief
Licensing Section
Spent Fuel Project Office
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Reference: Certificate of Compliance No. 5939, Docket 71-5939

Dear Mr. Monninger:

GE hereby requests that Certificate of Compliance No. 5939, for the Model 1500 shipping container, be renewed. The current versions of the operating procedures, acceptance tests and maintenance procedures are the same as the previous application for renewal, except as modified by Certificate of Compliance No. 5939, Revision 29, dated November 21, 2001. They were reviewed and no changes have been made since Revision 29. No quality assurance procedures for the manufacture or receipt of new containers are included because GE does not currently plan to obtain new containers.

If additional information is required, please contact me on (925) 862-4469.

Sincerely,

C. W. Bassett
Radiation Safety Officer
