UNSATURATED ZONE HYDROLOGY AND GEOCHEMISTRY TECHNICAL MEETING

The subject meeting is currently scheduled for September 23-26, 1985. As you know, the intent of the meeting is to provide a forum for discussion of NRC concerns relative to characterization of the unsaturated zone. The NNWSI Project position, therefore, is that the lead for developing meeting objectives and agenda most properly rests with the NRC. It is our understanding that you are in agreement with the above position.

We would appreciate receiving your statement of the meeting objectives and proposed agenda as soon as possible so that we can better estimate the level of Project support that will be required at the meeting.

We will, of course, be available to discuss your plans for the meeting at your convenience.

Donald L. Vieth
