ATTN OF:

SUBJECT: Review of Revised HQ/OGR QA Plan, OGR/B-3, Rev. 2, Draft "A",
October 1987

TO: Distribution

Attached is a copy of the reformatted HQ/OGR QA Plan (OGR/B-3, Rev. 2, Draft "A", October 1987) for your review and comment.

The Director's policies on managing for quality and quality levels has been incorporated as they have been described in the QAMPR (1987). The requirements of the NRC's GTP's on Peer Review and Qualification of Existing Data are included in the Program Description in Section 2. It is expected that any further changes as a result of reviewers' comments, or the QAMPR draft, would only be minor and we will update the draft as required.

We have received no input on the scheduled release of Revision 2 of the NRC's Review Plan, and this could result in additional changes at which time there may be other clarifications that would be desirable before DOE again adopts it as a requirements document.

We would appreciate receiving your comments by November 16, 1987.

Siting, Licensing & QA Division
