

SAFETY EVALUATION REPORT

Docket No. 71-9255
Model No. NUHOMS MP187 Multi-Purpose Cask
Certificate of Compliance No. 9255
Revision 9

SUMMARY

By application dated August 4, 2003, Transnuclear, Inc. (TN) requested renewal of Certificate of Compliance No. 9255, for the Model No. NUHOMS MP187 Multi-Purpose Cask. In support of this application, TN submitted a consolidated safety analysis report for the package design. Although TN did not request any changes to the package design or authorized contents, minor editorial changes have been made to the certificate. The certificate has been renewed for a five year term.

EVALUATION

By application dated August 4, 2003, TN requested renewal of Certificate of Compliance No. 9255, for the Model No. NUHOMS MP187 Multi-Purpose Cask. TN did not request any changes to the package design or authorized contents. The staff reviewed the documents referenced in the certificate and determined that the documentation was available, complete, and were included in the consolidated safety analysis report. The staff also reviewed the operating and maintenance procedures for the package and found them to be complete and adequate.

After reviewing the documents referenced in the Certificate of Compliance, the staff determined that the certificate holder revised several drawings to make minor editorial changes. As a result of this, the revision numbers for the drawings have been changed. Accordingly, the staff has revised the revision numbers for these drawings in the Certificate of Compliance.

Additionally, Condition No. 5(c) of the certificate was revised to clarify that the Transport Index for Criticality Control is the same as the Criticality Safety Index as defined in the IAEA Regulations for the Safe Transport of Radioactive Material (TS-R-1).

CONCLUSION

The Certificate of Compliance has been renewed for a five year term that expires on October 31, 2008. This change does not affect the ability of the package to meet the requirements of 10 CFR Part 71.

Issued with Certificate of Compliance No. 9255, Revision No. 9,
on October 14, 2003.
