THOSE PARTIES INTERESTED IN HIGH-LEVEL WASTE

TESTIMONY SUBMITTED BY NRC CONCERNING THE CIVILIAN HIGH-LEVEL RADIOACTIVE WASTE MANAGEMENT PROGRAM (SP-92-029)

Enclosed for your information is a copy of the U.S. Nuclear Regulatory Commission's (NRC) prepared testimony submitted February 6, 1992, by Robert Bernero, Director, Office of Nuclear Material Safety and Safeguards before the U.S. House of Representatives' Science, Space and Technology Subcommittee on Energy. I hope you find this information useful in providing you with a status report on NRC's repository licensing program. This testimony emphasizes NRC's reviews of the Department of Energy site characterization program at Yucca Mountain, Nevada, and it also addresses the NRC staff's review of the Environmental Protection Agency high-level waste standards.

Sincerely,

original signed by Vandy L. Miller
