Subject: Registrations

Dear Sir:

This is to confirm what we discussed on the phone this morning.

Please transfer registrations NR-112-D-102-B and NR-112-D-103-B to our new name - BSI Instruments, and then de-activate them. We do not need an active registration for the LB 7000 series devices because we do not plan to manufacture or import them any more. We will continue to provide service for them and to re-distribute existing devices with no changes in design. The labels on the devices we ship will comply with 10 CFR 32.51 and 32.51A.

Thank you for your assistance
