

Department of Energy
Washington, DC 20585

AUG 9 1988

Mr. B.J. Youngblood, Chief
Operations Branch
Division of High-Level
Waste Management
Office of Nuclear Material Safety
and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Reference: 1) Meeting Minutes, Summary of NRC/DOE Meeting
dated July 12, 1988.

Dear Mr. Youngblood:

Find attached a copy of the OCRWM baseline document "OGR/B-14
Office of Geologic Repositories Quality Assurance Requirements
for High-Level Waste Form Production"; February 1988, for your
information and review. This transmittal is related to QA Open-
Item #4 identified in the meeting summary from our July 7, 1988
meeting (Reference 1).

As we discussed in the meeting, the review of this document is in
our view a lower priority than the NRC review and acceptance of
the ten Program Participant QA Plans identified in our schedule
for NRC acceptance of the DOE QA Program to initiate new site
characterization activities.

Questions related to this transmittal should be addressed to
Edward Regnier of my staff (202) 586-4590.

Ralph Stein
Acting Associate Director for Systems
Integration and Regulations
Office of Civilian Radioactive
Waste Management
