October 18, 2003

Peter F. Davin
Vice President and General Counsel
MOTA Corporation
2516 Jane Street
Pittsburgh, PA 15203

SUBJECT: JOHNSTOWN HIGH SCHOOL

Dear Mr. Davin:

This refers to your letter dated August 14, 2003, informing the NRC of the discovery of radioactive material in the chemistry laboratory of Johnstown High School and your plans to have Applied Health Physics, Inc. (AHP), an NRC licensee, remove and dispose of the radioactive material. We understand that you discussed this matter with Kathy Modes of this office and noted that the material in question was exempt from the requirement for a license. We also understand that you informed Jim Yusko of the Commonwealth of Pennsylvania about your plans to properly remove the radioactive material from the school.

We appreciate your proper handling of these matters. Thank you for your cooperation. If you have any questions, please call Ms. Modes at (610) 337-5251.

Sincerely,

Original signed by John D. Kinneman

John D. Kinneman, Chief
Nuclear Materials Safety Branch 2
Division of Nuclear Materials Safety
