Your letter dated September 26, 2003, requested revision of License Condition 11.2 to remove 7 monitoring wells (at the Irigaray site) from excursion status, based on the submittal of May 14, 2003, and the WDEQ letter of July 29, 2003.

Our preliminary review has not resulted in any comments, but additional review may require a request for additional information. We intend to complete our review by October 30. If you have any questions, please call me at 301-415-6606.
