Subject: Transmittal of Data Catalog Per Milestone T-216

Dear Carl:

On January 15, 1988, we provided to your office the twelfth quarterly update of the SNL NNWSI Project Data Catalog. The Data Catalog is used by the NRC in accordance with the site-specific agreement. The Data Catalog is a "pointer" to data sets located in the SNL NNWSI Project Data Records Management System (DRMS), which is part of the SNL NNWSI Project Local Records Center. The DRMS is the location where data are filed and can be viewed. Please note that when a DRMS Data Set has more than one data-gathering activity, the QA Level designation pertains to the activity with the highest QA Level. Data-gathering activities initiated before December 24, 1986, are given a QA Level of TBD (To Be Determined).

Attached is the quarterly update to the SNL NNWSI Project Data Catalog, due April 15, 1988. If you have questions regarding the Data Catalog, please contact me (844-9160), Tom Blajwas (846-0541), or Barry Schwartz (846-8268).

Sincerely,

Thomas O. Hunter, Manager
