Dear Dr. Ross:

This is to inform you that the NNWSI Hydrogeology Team will be having a meeting in Silver Spring, Maryland on Thursday, December 15, 1983. You, along with Dr. Mercer, are requested to attend this meeting.

In planning for review of the upcoming NNWSI Environmental Assessment, an important technical document to be reviewed under your contract, the Project Management Branch needs to know the status of our review of the ongoing NNWSI Site Characterization Program. This would include our observations made to date and any important technical concerns we may have. To meet this end I have begun preparation of a status report.

The purpose of this meeting is to review and discuss the draft status report and initiate your participation in completing this report by January 31, 1983. In this way all members of our team will participate, assuring the report will be complete and mutually agreed upon.

The action taken by this letter is considered to be within the scope of the current Contract No. NRC-02-82-047. No changes to cost or delivery of contracted services and products are authorized. Please notify me immediately if you believe this letter would result in changes to costs or delivery of contract products.

Sincerely,

"ORIGINAL SIGNED BY"

Jeffrey A. Pohle, Project Officer
Geotechnical Branch
Division of Waste Management
